An example ticket
(Please note: Text size and
content can be adjusted)

An example cash report showing a
breakdown of typical shift transactions

Benefits

- Small size so it is easy to manoeuvre
- Lightweight so there is reduced risk of injuries at work
- Carry strap so operators have free hands
- Long battery life so no down time
- Spin wheel and hotkeys so tickets are found quickly
- PC transfer so data can be used for financial analysis
- User accounts so staff can be reviewed
- Ample ticket types so the pricing can be done very accurately
- Multicurrency so the machines can work between countries
- Barcodes and optional scanners so access can be controlled
- Voids, discounts, and tax features so time is saved
- Credit card option so it offers ease and flexibility of payment
- Automatic time/ date price changes so it saves time configuring
- Unique identifiers so the tickets are fully traceable
- Manager spot checks so theft is minimised
- Remote configuration so managers can quickly respond to market changes
- Common paper sizes so the prices are competitive
- Fast ticket issue so the queues are minimal
- Good quality print so the tickets look professional
